PJ's Pets

Dear PJ's Pets Proprietor:

The Westcreek Public School Student Community Council would like to express our thanks to you for your donation to our first Fun Fair event held on Thursday, June 3, 2010. Our great success is due in part to your generosity.

Your donation of two \$25.00 gift certificates towards our silent auction was greatly received by all who participated. We received so many wonderful gift items that we were able to put together quite a variety of baskets of related products and services targeting all age groups.

It is wonderful to see both businesses and communities coming together to support our children in their education and enrichment programs. With your help we were able to raise \$5,500.00. These funds will support four initiatives at the school: our new outdoor classroom where teachers can bring their classes for different learning activities in an outdoor setting, our library, the Scientist in the School program and media carts for the classroom. The media cart is a new technology being introduced within the schools and is an interactive computer technology that will greatly assist the teacher in the classroom setting.

Your company will again be recognized in our school's monthly newsletter later this month.

Thanks again for your kindness,

Westcreek Public School

Student Community Council
